Infrastructure Consultant

GuidewireSI is seeking experienced Infrastructure consultants with a proven track record in installing, upgrading, and administering JD Edwards Enterprise One.   Accepted candidates will have the skills to provide exceptional consulting services to clients, helping them gain the optimum benefit from their JD Edwards investment. Desire a creative person who has developed innovative approaches to complex problems in a team environment. This position requires 30-50% travel with projects executed on-site at Guidewire Systems Integrator client locations nationwide with a typical week of four 10-hour days.

Desired Skills and Experience

- A minimum of 3 full life cycle projects that were new installations and/or upgrades with Enterprise One 9.0 or later

- Apply ESUs, ASUs, Updates and Service Pack upgrades

- Strong understanding of relational database technology; specifically Microsoft SQL and/or Oracle databases

- Experience with multiple Operating Systems (Unix / Windows / OS400)

- JD Edwards administration experience with security, print, batch queues, performance tuning and monitoring

- Experience with new JD Edwards technology including BI Publisher Enterprise Edition, One View Reporting, and E1 Pages a plus

- Goal oriented with high standards for quality and performance

- Excellent verbal and written communication skills a must

- Supports business development activities

Education and Certification

- Bachelor's degree (business, accounting, engineering or related field recommended)

- Oracle or Microsoft certifications a plus

This is a direct position with our consulting practice. GuidewireSI provides excellent salary and benefits. Our offices are located in Denver, CO near the Oracle Tech Center Campus. We are pleased to hire consultants in other areas of the country.

We offer competitive salaries and benefits in an incredible work environment.
